

What is Terna's pumped hydro energy storage scheme?

The first phase of the scheme is specifically targeting lithium-ion battery energy storage system (BESS) projects while a second auction will be carried out for pumped hydro energy storage (PHES) projects, Terna's two 'reference' technologies chosen for their technological and commercial maturity.

How many GW will Terna spa deliver in 2024?

Italian grid operator Terna SpA (BIT:TRN) on Tuesday assigned contracts for 41.5 GW in the capacity market auction for the 2024 delivery year, including 12.9 GW of awards to energy major Enel SpA (BIT:ENEL). This auction round is the third one, with auctions already held for the delivery years 2022 and 2023.

Does Terna have a MACSE target?

This has reduced the need for procurement of utility storage capacity mainly in the South, resulting in lower MACSE volume targets. However, Terna still has a substantial procurement target of 50 GW of storage capacity by 2030 under the MACSE scheme.

Does Terna have a storage capacity target?

However, Terna still has a substantial procurement target of 50 GW of storage capacity by 2030 under the MACSE scheme. In Diagram 1 we summarise how storage flexibility will be key to support RES deployment (top panel) & Terna's target storage capacity volumes (bottom panel).

Who won the Terna Energy Auction?

Terna has already opened up a number of other avenues for energy storage to provide services or capacity to the grid. The auction's biggest winners appear to be Enel X and ENGIE, with around 65MW and 70MW of awards respectively.

How did Terna get 230mw?

Terna said the process was participated in by bidders offering six times the amount of capacity being tendered for. The pilot had launched with an expectation that around 230MW would be on offer, Terna received 1,327MW worth of bids, and eventually awarded contracts for 249.9MW.

Italian electricity TSO Terna has received more than 100 GW of requests to participate in the energy storage auction it is planning before summer 2025. The first phase of ...

Italian electricity TSO Terna has received more than 100 GW of requests to participate in the energy storage auction it is planning before summer 2025. The first phase of the MACSE tender is expected to be the biggest battery procurement exercise held in ...
