"Thai Energy Storage Technology PLC." be formed through an amalgamation between Hitachi Chemical Storage Battery (Thailand) PLC. and Hitachi Chemical Gateway Battery (Thailand) Co., Ltd. News & Activities

THAILAND ENERGY STORAGE INITIATIVE is a home for pioneering research, innovation, and collaboration in energy storage technologies. Our consortium unites experts, researchers, and industry leaders to drive advancements in sustainable energy storage solutions that will power Thailand's future.

What is thought to be Southeast Asia's largest battery energy storage system (BESS) to date will be supplied to a solar PV-plus-storage project in Thailand by Sungrow.

Sungrow said the two parties will cooperate on energy storage, green hydrogen, green bonds and blockchain technology with the intent to further Thailand's aims of a low-carbon economy. Thailand is targeting carbon ...

On 1st October 2020, Thai Energy Storage Technology PLC. be formed through an amalgamation between Hitachi Chemical Storage Battery (Thailand) PLC. and Hitachi Chemical Gateway Battery (Thailand) Co., Ltd. The company's product are quality products manufactured under the following international standards:

The growing reliance on renewable energy highlights the need for reliable, cost-effective storage technologies. By building global networks, this project aims to strengthen Thailand's role in clean energy, advancing local expertise in electrochemistry and materials to support economic growth and sustainability.

The projects are part of Thailand's ambitious renewable energy feed-in-tariff programme, aimed at doubling its installed wind and solar capacity by 2030 and progressing the country towards its renewable energy targets. The move aligns with Thailand's goal to boost its renewable energy output to 50% by 2037.
