

Home Battery Storage, Air Source Heat Pumps (ASHP). At a price which does not cost the earth, go green today. Save Money with Green Technologies

The development would also see the creation of a battery storage facility, which would store some of the excess solar energy for release when needed by customers.

A Battery Storage system consists of high capacity batteries connected through a power converter unit directly to your mains supply, which allows power shifting and is suitable for both domestic and commercial properties.

Located in the heart of the Isle of Man, GTEC's newest training centre is dedicated to advancing skills in renewable energy and sustainable technologies. Starting with a focus on Solar PV & Battery Storage courses, our Isle of Man centre is set to establish itself as a prominent hub in the field of green energy training.
