

The latest solar container power recall announcement

What if a solar battery is recalled?

If a battery is subject to recall, it should be switched off immediately," ACCC Deputy Chair Catriona Lowe said. "Thousands of people may be unaware they live in homes that have one of these affected batteries installed in their solar energy system. The Minister has issued a safety warning notice to draw attention to the safety risks.

What does the ACCC do if a solar battery is recalled?

The ACCC manages a national recalls system for consumer products and has a role in supporting state and territory regulators to monitor electrical equipment recalls. More information about this recall, including next steps for affected households, can be found on the ACCC website. Solar batteries became eligible under the SRES on 1 July 2025.

Are Powerwall 2 batteries recalled?

Tesla has issued a voluntary product safety recall for certain Powerwall 2 home batteries. The ACCC manages a national recalls system for consumer products and has a role in supporting state and territory regulators to monitor electrical equipment recalls.

Are recalled LG solar lithium-ion batteries a fire risk?

Following a recommendation by the ACCC, the Assistant Treasurer, the Hon. Stephen Jones, has today issued a national safety warning notice to warn consumers of fire risks associated with recalled LG solar lithium-ion batteries which are installed in solar energy systems across the country.

What happens if a Tesla Powerwall battery is recalled?

Homeowners will be notified in the Tesla app if their Powerwall is part of the recall, and the company is in the process of discharging the batteries to reduce the risk of fire. Recalled batteries will be replaced free of charge, and the company "will consider compensation for lost energy savings ... on a case-by-case basis," the ACCC said.

What is the LG S/A Gen2 home energy storage system (ESS) recall notice?

This recall notice was updated in February 2023 with additional instructions and remedies for consumers. LG S/A Gen2 Home Energy Storage System (ESS) Batteries are installed as part of a residential energy solar system, which allows owners to capture and store energy from solar panels.
