ThyssenKrupp Solartec is suitable for both residential and industrial building. Single-shell elements are available in two performance types. The modules can also be supplied as sandwich elements with varying performance ratings. The large, unbreakable panels are easy to install, can be walked over and offer greater operating safety.

Demand for ThyssenKrupp Solartec panels, steel building elements laminated with photovoltaic film, is growing fast, with the value of orders received in the first nine months of 2004 already matching the total received from 1999 to 2003.

La Administraci&#243;n Nacional de Electricidad (Ande) de Paraguay tiene previsto licitar la primera planta de energ&#237;a solar en el Chaco para el a&#241;o 2024. El presidente de la Ande, F&#233;lix Sosa, se&#241;al&#243; que este proyecto ...
