

Timor-Leste cm solar scheme apply online

What is a photovoltaic project in Timor-Leste?

Just as the remaining renewable energies sources that are being explored by the Government in Timor-Leste, the photovoltaic units (or solar project) implementation project is specially directed for the families that live in remote areas, where difficulties still exist in the national energy network installation.

What does renew do in Timor-Leste?

From 2003 to 2021, Renew worked with communities in Timor-Leste to provide clean, renewable lighting and electricity. We helped install solar lighting and power to more than 2,000 homes and over 100 community centres, orphanages, schools and hospitals in remote rural villages. We also helped train 180 village-based solar technicians.

Why did Timor - Leste invest in solar photovoltaics?

According to Silva, the government's purpose was to invest in Solar Photovoltaics (PV) because it can help Timor - Leste save the cost of fuel which will be filled with generators in Hera and Betanu. "Every year the Government pays \$126 million for the fuel which will be filled in the generator," he said.

Is there a market for roof-top solar energy systems in Timor-Leste?

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

Is Timor-Leste a good country for solar energy?

Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia, where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

How much does electricity cost in Timor-Leste?

The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries. For instance, in Indonesia industrial electricity tariffs are 0.11 USD/kWh, compared to 0.24 USD/kWh in Timor-Leste.

The Government of Timor-Leste intends to replace part of this high-cost generation by more cost-efficient solar power. As almost the whole territory of Timor-Leste has the potential to successfully generate solar energy, the Government is keen to tap into this potential to setup utility scale solar plants as well as off-grid lighting solutions ...

Application Process for the Free Solar Panel Scheme. Applying for the scheme is simple and can be done online or via SMS. Follow these steps: How to Apply Online. Visit the official website:
