

Top 10 solar panels 2024 Czechia

Why is the solar market growing in Czechia?

The figures mark a period of rapid growth in Czechia's solar market. The growth has been largely driven by residential PV, with most of the new installations (80,069) being domestic PV plants, supported by the country investing an additional CZK 55 billion (\$2.5 billion) in its New Green Savings program back in March 2023.

What is the global solar market outlook for 2024-2028?

SolarPower Europe's annual Global Market Outlook for Solar Power 2024-2028 reveals growth rates not seen in over a decade, since 2010 when the global solar market was only 4% of what it is today. Solar continues to soar amongst its renewable colleagues, installing 78% of the total renewable energy installed around the world in 2023.

Will China determine the rate of global solar growth?

For now, it seems that China will determine the rate of global solar growth, though it continues to be one of the most dynamic, and difficult to predict, markets. In 2023 alone, China installed 57% of global capacity - 253 GW - equivalent to the levels installed globally in 2022.
