Does Zambia have a solar market?

The Zambian solar market is growing, although it is still relatively small in comparison with countries like Tanzania. 95% of the electricity supply in the country comes from hydropower, where less than 1% comes from other renewable sources. Since the electricity demand in Zambia is growing, there is much room for solar to grow as well.

Why is solar power important in Zambia?

Right now, Zambia mainly depends on hydropower, due to the large dams generating electricity in the country. Droughts made this electricity source less dependable and combined with the increase in electricity demand a new renewable source is desirable. The growth in solar power is therefore of great value and goes beyond just the energy sector.
