Providing energy for Vatican City State. The agrivoltaic plant will make use of the Holy See's property at Santa Maria di Galeria. Located on the edge of Rome, the 424-hectare site houses the transmission facilities for Vatican Radio, thanks to a 1951 agreement between the Holy See and the Italian State.

5 · Completed in record time almost on the eve of the Jubilee Year, a new photovoltaic system has been installed in the Cortile delle Corazze in the entrance of the Vatican Museums and will produce electric energy from a renewable resource.. With this project, the Governorate of Vatican City State is implementing the guidelines Pope Francis outlined in the Encyclical ...

2 · Video. Pope Francis outlined his green vision for the Vatican in his "Brother Sun" letter in June. In it he said solar panels would be installed on a Vatican-owned property outside Rome and the ...

From 20 December, official inauguration day - and in perfect timing to receive the thousands of faithful and visitors who will flock to the Eternal City for the opening of the Jubilee Year - the glass "roof" of the Vatican Museums' "Courtyard of the Corazze" entrance will unveil its new green and eco-friendly guise, thanks to the construction, in the record time of six months, of ...

In a letter released on June 21 entitled "Brother Sun" Pope Francis announced his intention to transition Vatican City onto 100% renewable energy using solar panels.

One of the Vatican's most notable initiatives is the expansion of solar energy systems across key locations, including the entrance to the Vatican Museums and the Vignaccia area.

2 · A new solar panel roof has been inaugurated at the Vatican to provide renewable energy to the

Vatican City solar panel energy

museum. It's part of Pope Francis' plans to ensure the city state in Rome runs entirely on green energy. Italian energy supplier ACEA installed the photovoltaic roof in just six months in the Courtyard of the Corazze entrance.
