

# Wallis and Futuna solar performance

The largest collection of free solar radiation maps. Download maps of GHI, DNI, and PV output power potential for various countries, continents and regions.

Map with solar irradiation and PV power potential in Wallis and Futuna. The GIS data stems from the Global Solar Atlas ([link](#)). The link also provides a poster size (.tif) and midsize map (.png).

A Wallis et Futuna, comme dans de nombreuses îles du Pacifique voire les îles du monde entier, l'indépendance énergétique est un enjeu crucial, enjeu politique et financier.

The GIS data stems from the Global Solar Atlas ([link](#)). The link also provides a poster size (.tif) and midsize map (.png). The Global Solar Atlas is continuously updated.

Map with solar irradiation and PV power potential in Wallis and Futuna. The GIS data stems from the Global Solar Atlas ([link](#)). The link also provides a poster size (.tif) and midsize map (.png).

Solar PV: Solar resource potential has been divided into seven classes, each representing a range of annual PV output per unit of capacity (kWh/kWp/yr). The bar chart shows the proportion of a country's land area in each of these classes and the global distribution of land area across the classes (for comparison).

Wallis and Futuna. Key Data. General information: Constitutional status: Overseas Territory of the United Kingdom; Land area: 142 km<sup>2</sup>; Exclusive Economic Zone: 262,566 km<sup>2</sup>; Population: 11,558; GDP per capita in 2009: 10,100 (EUR) CO<sub>2</sub> eq emissions: Energy transition: Installed capacity in 2019: 8.5 MW; Power generation in 2020: 21.6 GWh

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource ...
