

# What does it mean to be worthy in the field of solar container

What is a cargo worthy container?

Cargo Worthy (CW) containers take reliability a step further. These containers, available in both our one-way container leasing and used shipping line container offerings, are certified as suitable for transporting cargo overseas, ensuring you meet all international shipping regulations. Free Quotation within 24Hours !

How do I know if a container is seaworthy?

The owner of the container will be issued a certificate, stating that the unit is seaworthy or Cargo Worthy. This document is required by the port authority, prior to the unit being loaded on a vessel and shipped. Containers are stacked on a vessel for transport.

What happens if a storage container is "as is"?

ISO storage containers in "as is" condition has the potential for being damaged in the shipping process, structural problems or significant rust. These containers can no longer be considered "WWT". While Container Technology typically does not deal with this condition category, ask one of our team members about availability.

What makes a container a cargo-worthy container?

Containers certified fit for carrying cargo will be wind and water-tight and able to transport goods over open sea. They can be stacked up to seven containers high owing to their robust construction. A cargo-worthy container typically has few rust spots and dents, and its doors open and shut smoothly.

Why do you need to understand conditions when sourcing containers?

When sourcing containers, it's necessary to understand conditions for a number of reasons: Suitability: Different container conditions are better suited to specific purposes. For example, if you're transporting expensive cargo, you probably don't want a container that's transported toxic waste or chemicals in the past.

What happens if a container doesn't meet the criteria?

What's more, you get 7 days after the release of containers to check the conditions. If a container you receive does not meet the agreed criteria, we will provide support and mediation. It's one thing to buy containers in good condition, but you've also got to make sure they stay that way.
