developing new Wooreen Battery Energy Storage Systems (WESS). EA has committed to building a BESS with a rating up to 1400MWh, providing electricity back into the grid at 350MW for a maximum of 4hours, which will be one of the largest operational batteries in Victoria.

developing new Wooreen Battery Energy Storage Systems (WESS). EA has committed to building a BESS with a rating up to 1400MWh, providing electricity back into the grid at ...

Called Wooreen Energy Storage System, the project is being built in part to replace EnergyAustralia's 1,450MW Yallourn coal-fired power station, scheduled for retirement in mid-2028. Yallourn burns around 18 million ...

The battery will be known as the Wooreen Energy Storage System (WESS). "Wooreen" is a Gunaikurnai language name meaning "light". Energy Australia was gifted the name by Aunty Doris Paton and the Gunaikurnai Land and Waters Aboriginal Corporation. Utility-scale batteries store low-cost energy, such as excess renewable energy.

September 9, 2024: Australia's federal government confirmed on September 4 it would underwrite the construction of six new BESS projects across two of the country's states with a total ...

Wooreen Battery Energy Storage System (WESS) and associated infrastructure; across two sites in Bonds Lane and Monash Way, Hazelwood North. The WESS will be rated up to 1400MWh providing electricity back into and drawing from the grid at 350MW for a maximum of 4 hours. The WESS enables the transition of

EnergyAustralia secured two projects -- Wooreen, which will be located in the Latrobe Valley, Victoria, and Hallett in Canowie, South Australia.

The Wooreen BESS will be located on the site of EnergyAustralia's Jeeralang Power Station, located at Hazelwood North in the Latrobe Valley. The project comprises 350 megawatts (MW) of 4-hour capacity of energy storage, equivalent to 1,400 megawatt hours (MWh) of electricity.

The Wooreen BESS will be located on the site of EnergyAustralia's Jeeralang Power Station, located at Hazelwood North in the Latrobe Valley. The project comprises 350 ...

Wooreen Battery Energy Storage System (WESS) and associated infrastructure; across two sites in Bonds Lane and Monash Way, Hazelwood North. The WESS will be rated up to 1400MWh ...

Wooreen Energy Storage System will be constructed on the traditional lands of the Brayakaulung people of the Gunaikurnai nation. EnergyAustralia respects and acknowledges their continued connection to Country, culture, and community.

Called Wooreen Energy Storage System, the project is being built in part to replace EnergyAustralia's 1,450MW Yallourn coal-fired power station, scheduled for retirement in mid-2028. Yallourn burns around 18 million tonnes of coal annually, contributing about 22% of Victoria's electricity demand, but also contributing about two-thirds of ...

September 9, 2024: Australia's federal government confirmed on September 4 it would underwrite the construction of six new BESS projects across two of the country's states with a total storage of 1,081MW.
